How to purchase

There are a number of ways you can purchase Macrium's Server backup products:

Standalone endpoint backup:

- Macrium Reflect Server
- Macrium Reflect Server Plus

Agent licenses (installed using Site Manager)

- Macrium Reflect Server
- Macrium Reflect Virtual Server

Agent licenses can be installed using the Macrium Site Manager platform. This makes it easy to scale backup across multiple physical or virtual servers. This is particularly useful for large organizations and MSPs.

Talk to your sales representative for more information about purchasing Macrium Reflect Server and Server Plus.

System requirements and compatibility

- Reflect will work on Win XP / Server 2K3 and later.
- Appropriate OS level service packs and hotfixes may be required for installation on some Windows versions.
- Some features unavailable on Win7 and earlier.
- Standalone install on Vista (Server 2K8) 64 bit requires specific attention.
- See Macrium Knowledge Base for details.
